

SEPTEMBER 11 & 12, 2024 // GRAZ, AUSTRIA

# FROM MOLECULES TO ADVANCED THERAPY

## RESHORING PHARMA MANUFACTURING AND BATTLING SUPPLY CHAIN PROBLEMS

The ECCPM FORUM 2024 is an exclusive 2-day event that combines intense scientific training and a curated panel of experts to facilitate the implementation of novel pharmaceutical manufacturing technologies.

From pharmaceutical companies to governmental agencies, contract manufacturing organizations, to other experts in manufacturing and service providers, this gathering is a unique opportunity to connect and collaborate toward a shared vision of the future of pharmaceutical production.
